

Healthy Gardening for People, Pets, and the Environment!

Saturday, April 30th: 9 a.m. - 1 p.m.

Learn how to:

- Choose appropriate plants for your garden
- create habitat for birds, butterflies and beneficial insects
- build and maintain healthy soil
- manage pests and weeds the least toxic way
- save time, energy, resources and money in your garden

Course includes an extensive gardening manual, colorful insect ID guide and your own worm-composting bin! (Last half hour of class involves making a worm bin.)

Registration information for this class is available by calling the College of Marin at 457-8811, extension 7751 or visiting their website at www.marincommunityed.org

Spring Course #8486
Spring Course #8487

Cost: \$30 with worm bin
\$20 without worm bin

Presented by Marin County Stormwater Pollution Prevention Program. For more information, call 499-6528.
